

Software engineer

Is your head never still, is innovation and optimization in your DNA and do you constantly think about how things can be better and more beautiful? Are you done with building software that only takes place on a screen? Then grab your chance at PWR to write innovative c# software to control our high-speed delta robot machines. Become a full sparring partner within our R&D team!

This will be your job

In this role you will show initiative in new developments and improvements of existing techniques. You are responsible for the innovation of existing software solutions for the control of pick and place machines. As a developer, you work on the architecture and coding of a Framework, with which we can build efficient customized solutions for our end customers. You also work on optimizing the performance of the software and develop complex control algorithms. You look for smarter ways of communicating between the various systems and software and structure the code. With enthusiasm, together with your colleagues, you lift the platform to a higher level.

Success is yours by

- writing, developing and improving .NET software components;
- transferring and sharing your knowledge and skills of .NET with your colleague software Engineers;
- supporting in solving problems and issues in the software;
- keeping up with and applying new trends and developments.

A very varied and challenging position for a programming talent! Are YOU going for this?

What we ask of you

You are welcome to talk to us if you have

- HBO or WO work and thinking level.
- knowledge of and experience with C#.net, relational database structures, object-oriented design.
- experience in the machine building or food industry is a plus;
- experience with Web technology, Threading, MVVM, UML and Dependency Injection is a plus;
- good command of the English language orally and in writing.

You get this from PWR

- working at a technically advanced organization where innovation plays an important role. Who doesn't want that?
- join #TeamPWR; good atmosphere, great colleagues and various annual and seasonal activities;
- full time employment (40 hours pw) and of course an appropriate salary and fringe benefits (25 vacations and 13 ADV days);
- plenty of attention for development, training and personal vitality (sports budget).

Convinced we will be a good match

Now it is up to you! If you want to know more, please contact Rosemarie Tekampe, HR Manager. If you want to apply directly, send an e-mail with a short motivation and CV to recruitment@pwrpack.com. See you soon!

About us

PWR is the specialist for custom-made automated robotic packaging solutions in the Food industry. We are specialized in high-speed packaging of products with Delta robots. Our products are premium technical solutions of which we master the technology which we constantly develop.

We understand our customers' needs by engaging with them throughout the entire process. With the most up to date technology we ensure the highest running efficiencies, minimum down time, low cost of ownership and the best price to value ratio in the industry. A good relationship with our customers is a vital part of our company.

PWR is active globally with our head office located in Ede, central in the Netherlands.
