

## Technical Writer / - Documentalist

Do you have experience with technical documentation within a complex market? Do you get energy from making difficult and complicated documents easier to read? In that case we would like to welcome you in our technical and innovative organization.

### This will be your job:

Our customers are expressing an increasing need for clear and simple instructions for operating our machines. We would like to meet these needs. The position therefore concentrates on writing and drawing up these instructions, manuals and training courses. Together we are going to professionalize our technical documentation.

### Success is yours by:

- Gathering all the information you need from fellow engineers in the various departments (mechanical engineering, automation and service);
- Preparing simple but effective technical documentation; e.g. user manuals, maintenance schedules, spare part documentation for installation, operating and maintenance instructions together with the service- and commissioning department;
- Developing templates to work consistently and efficiently;
- Structuring and organizing well, especially when it comes to content and layout of documents;
- Checking and revising existing documents.

There is plenty of room to think along with us about the way in which we are now documenting and together determine how this can be improved. Do you accept this challenge?

### What we ask of you

- Experience in writing technical manuals
- You are very proficient with formatting tools and image processing in MS Word/Powerpoint.
- High level command of written English and Dutch
- Knowledge of the requirements of CE certification for the manuals.

### You get this from PWR:

- Working for a technically advanced organization where innovation plays an important role; who wouldn't want that?
- Join#teamPWR; pleasant ambiance, friendly & enthusiastic colleagues and yearly company activities.
- A fulltime job position (40 hours/week) with flexible working times and of course a matching salary and secondary employment conditions (25 vacation days and 13 ADV).
- Focus on personal vitality (budget for sports), development and education.

### Convinced we will be a good match?

Now it is up to you! If you want to know more, please contact Jan-Willem Tent, Recruiter a.i. If you want to apply directly, send an e-mail with a short motivation and CV to [recruitment@pwrpack.com](mailto:recruitment@pwrpack.com). See you soon!
